

CUSTOM AERIAL WORK PLATFORMS

Bailey has the experience and expertise to develop any type of aerial work platform. Our Engineering Team includes registered Professional Engineers and computer based controls experts with over 100 years of Aerial Work Platform Design Experience. Key staff have been on several ANSI and UL standards committees and have developed over 50 CUSTOM Aerial Work Platforms.

Several Past Applications:

- √ **Explosion Proof Lifts Boeing/Lockheed Martin**
- √ **Air Powered Lifts Bombardier/US Army**
- √ **Clean Room Lifts Lockheed Martin**
- √ **Rocket Launcher Up AeroSpace**
- √ **150,000 Lb Material Lifter Machinery Mover**
- √ **Wind Tunnel Scissor NASA**
- √ **Battery Powered Big Booms Lockheed Martin/NASA**
